September 10, 1982

Mr. Robert D. Williams  
Vice President and General Manager  
Software and Information Systems Division  
Defense and Space Systems Group  
TRW, Inc.  
One Space Park  
Redondo Beach, CA 90278

Subject: Subcontract No. J20770YMOS

Reference: 1) Burroughs Letter Entitled SAFE Program;  
Subcontract No. J2077YMOS Between TRW and  
Burroughs, dated 7 July 1982  
2) TRW Letter 82.35656.06-007, dated 26 August 1982

Dear Mr. Williams:

I have received your request for response to Mr. Harry E. Fitzwater's correspondence dated 3 August 1982.

In view of the current discussions between our respective organizations and the potential outcome, I believe that any further elaboration substantiating the context of my 7 July 1982 letter would likely disrupt or hinder these attempts to reach a negotiated, equitable solution; Burroughs does not desire to create an adverse relationship with either you or your customer if it can be avoided.

In the event the resolution does not appear achievable, Burroughs is prepared to take whatever remedies are deemed appropriate. I hope, however, this does not come to pass and again emphasize that it is Burroughs' utmost desire to achieve a totally satisfactory and amiable solution to this dilemma.

Very truly yours,

BURROUGHS CORPORATION

Robert J. O'Connell, President  
Federal and Special Systems Group
